Protecting Kiwi Waterways

Dr Bert Quin

QUINFERT PRICE LIST 11 September 2021 ex Te Poi and Waharoa (GST excl)

Add \$40/t for pick-up from Haycock Contracting, Dannevirke and TESL, Rolleston, Canterbury

Quinfert Algerian RPR Standard and RPR V2 range . Both are RPRs. Algerian RPR Standard does not meet the Fertmark Code meaning of RPR (the 30-minute citsol test). It passes all the other tests, and ranks very highly in the Watkinson Dissolution test. Algerian RPR V2 has had the coarser dolomite screened out just so it does pass the citsol test. It has also had 2.5% CM (Controlled Moisture) added to minimise dust. The net effect drops the P content by 0.3 to 12.4% P.

	N	P	K	S	Ca	Mg	price/t
Quinfert Algerian RPR Standard (7% dolomite)	0.0	12.7	0.0	1.3	35	0.75	\$439

Quinfert RMA (Real Mitigation Action) range. A low-dust, fine-particle range of N*P*K*S*Ca* Mg products for cropping and silage paddocks. Contains QSR-P and optimised nutrient ratios to avoid environmental losses.

	N	P	K	S	Ca	Mg	price/t
RMA GP (General Purpose)	6.9	6.0	6.4	6.9	15	2.0	\$579
RMA Spring 1	10.1	6.0	4.2	8.0	14	1.4	\$579
RMA Autumn 1	5.1	5.0	8.1	4.0	15	2.5	\$579
RMA SUPORGANIK™	3.6	2.5	2.5	2.5	7.8	0.6	\$229

(Chicken litter inoculated with 16% RPR V2, 2% S90, and 2% PotMag. Apply at 1.0-1.5 t/ha)

RMA Allophos™ **NEW!** 1.6 4.0 0.0 4.2 11 1.0 \$293

(Blended with high-allophane subsoil to minimise P loss and minimise CO₂ losses from Peat soils. Zeolite addition available where desirable to reduce N losses. Apply at 1.0 t/ha)

Extras:

ONEsystem prilled, nbpt-treated urea \$800

Quinfert 'PotMag' 40.0% K, 4.6% Mg \$835

Sulphur 90 (sulphur bentonite prills) \$775

Additional nutrients and trace elements available at competitive prices.
